# Our Background

# Our PHILOSOPHY

## **Our mission :**

We create the intelligent combination and integration of logistical network services. We optimize the logistic balance sheet of our customers.

## **Our standard**

Customers can act as ambassadors for a company. This is why quality gets top priority at 3i LOGISTICS. Our standards are high: We optimize your value chain. Reliability, security and transparency are the cornerstones of our services.

## **Many parts – one unified whole**

Quality and excellent service are the keys to our success. This is made possible by our unique network of people and systems, which we have integrated into a unified whole. We are experienced in integration – which is always adapted to the culture of the respective customer. We ensure our quality and support our customers in their markets with knowledge, new technologies and a great willingness to learn.

## **The strong corporate culture in our family-owned business**

Our shared values form the basis of our corporate culture. They unite us across national borders. Our business concept and long-term strategies determine our actions. A shareholder-value mindset that is geared towards the short term is foreign to us. This ensures our company's long-term viability and investment power.

## **Our employees are your employees**

At 3i LOGISTICS, we put people first. Our employees are there for you. Their efficiency and enthusiasm make 3i LOGISTICS unique and vital. Each person who works with us strives to develop intelligent logistics solutions. Our employees view themselves as entrepreneurs within the enterprise and work to make 3i LOGISTICS a reliable partner.
